ePOP® **NEW** PCB Default Setting

1. Three (3) **START** and **STOP** Buttons
2. All three buttons must have the manual program ability to adjust the brewing time from 20-120 seconds.
3. The machine's **NEW** default setting times are:

Espresso **20** sec.

Lungo Espresso **30** sec.

Big Coffee Cup **70** sec.

5. ePOP® machine goes on STAND BY mode after 15 minutes is ON.

Machine is ready to brew when all three buttons and the interior super bright purple LED-light go ON at the same time.

When not used, after 15 minutes the machine goes on STAND BY energy saving mode, the interior purple LED-light turns OFF and the 3 buttons lights will flash cyclically.
